

On the Road (feat. Meek Mill & Lil Baby)

Post Malone

'Cause they ain't never seein' me fold under pressure
They ain't ever, ever seen me fold, not never
Always keep one up on 'em, 'cause I'm too clever
I will never, ever sell my soul not never
'Cause I been on the road, been on the road, I
Quit actin' like you been with me this whole time
'Cause I been on the road, been on the road, I
Quit actin' like you been with me this whole time Yeah, they bet I'ma fall
And I'm only 24, but bitch, I been through it all
I got so many hits, can't remember them all
While I'm takin' a shit, look at the plaques on the wall
Y'all just sit back, won't you kick back
Keep on actin' like you did that, got no respect
For nobody who's just fake in life, aye, aye
You ain't who you really say you are
So pick up the pace, there ain't no slowing me up
Get the fuck out my face, can you stop blowing me up?
'Cause one time is expensive, one mil a set list
Bought a new car 'fore you walk out for breakfast, yeah
'Cause they ain't never seein' me fold under pressure
They ain't ever, ever seen me fold, not never
Always keep one up on 'em, 'cause I'm too clever
I will never, ever sell my soul not never
'Cause I been on the road, been on the road, I
Quit actin' like you been with me this whole time
'Cause I been on the road, been on the road, I
Quit actin' like you been with me this whole time Yeah, where you been?
When it was time to do some work and put it in
I just be laughin' when I see 'em, look at them
Leave when I lose and pop back up soon as I win
You ain't my day one and I know you not my friend
So I can't judge you when you do some phony shit and just pretend
Like you really down with me, because bein' loyal starts within
I seen that money overpower love and turn it thin
But it ain't stop me, I just kept goin' up, took it on the chin
I wish every time they say I would fold, I'd make an "M"
Fuck around be as rich as Jeff Besos, say it again
Never lose, I go overtime on 'em, stay in that gym, let's get it
'Cause they ain't never seein' me fold under pressure
They ain't ever, ever seen me fold, not never
Always keep one up on 'em, 'cause I'm too clever
I will never, ever sell my soul not never

'Cause I been on the road, been on the road, I
Quit actin' like you been with me this whole time
'Cause I been on the road, been on the road, I
Quit actin' like you been with me this whole time I'm tired of bein' tired
This my last shot, you can't be mad, at least I tried
We supposed to be grown, but yet, you still actin' childish
I can get on the jet alone, I don't need no extra baggage
This year turned into a savage, I got baguettes in my necklace
Driving fast and I won't crash it and I'm supposed to be sober
But some kind of way, I just keep getting older
It's gon' take more than some pressure to fold me
Tried as hard as I can, but at this point it's outta my hands
I ain't runnin' out of these bands for nothin' or no one
She said I'm a dog, but it takes one to know one
Been goin' hard, been by myself, I don't need no love 'Cause they ain't never seein' me fold
under pressure
They ain't ever, ever seen me fold, not never
Always keep one up on 'em, 'cause I'm too clever
I will never, ever sell my soul not never
'Cause I been on the road, been on the road, I
Quit actin' like you been with me this whole time
'Cause I been on the road, been on the road, I
Quit actin' like you been with me this whole time
