

# Must Be My Lucky Day

Laura Osnes

They say once in a lifetime, you find a love that's true  
And if you're lucky then he will be someone who's lucky too  
They say there comes a moment everything goes your way  
I knew when I saw you standing there  
Must be my lucky day  
Every phrase that my crazy heart starts to speak  
I confess can't express what you do  
Ordinary words can't reveal all that things that I feel for you  
That's why they say  
One in a million ever turns out this way  
Something akin to the love I'm in  
Must be my lucky day  
Ordinary days slip away til my one lucky day shines through  
Today won't last forever  
Isn't that what they say?  
So every day that you're here with me must be my lucky day  
Must be my lucky day
