

Great Escape

TINI

Easy come easy go for a minute
I can't keep my hands off you
You're a million dollar bill don't forget it
I wanna spend my time on you And I been wondering
From morning to night
Stuck in delirium
I'm losing my mind
Do you feel it?
Do you feel it?
Feels so real, real, real You're my great escape
Feels too good to give away
And with every breath I take
I can't help myself, I can't help myself
You're my great escape
I won't let you get away
And with every breath I take
I can't help myself, I can't help myself
Ohhh ohh
Wide awake wanna stay tunnel vision Falling for the sweetest sin
I wanna taste everything when we're kissing
I love it when we're skin to skin
And I been wondering
From morning to night
Stuck in delirium
I'm losing my mind
Do you feel it?
Do you feel it?
Feels so real, real, real You're my great escape
Feels too good to give away
And with every breath I take
I can't help myself, I can't help myself
You're my great escape
I won't let you get away
And with every breath I take
I can't help myself, I can't help myself
Ohhh ohh
I'll be running, I'll be running, I'll be running
I'll be running, I'll be running, I'll be running
You're my great escape
Feels too good to give away
And with every breath I take
I can't help myself, I can't help myself

You're my great escape (you're my great escape)
I won't let you get away
And with every breath I take
I can't help myself, I can't help myself
Ohhh ohh
I'll be running, I'll be running, I'll be running
I'll be running, I'll be running, I'll be running
