

All Night Thing

Chris Cornell

She motioned to me
That she wanted to leave
And go somewhere warm
Where wed be alone
I do not know, whats going on
But Im guessing its an all night thing
If its an all night thing
Nobody is gonna make it end
And if it doesnt begin
Dont worry that Ill that offense
And if its an all night thing
And we fall like a tear falling
To the ground
Ill never come around
And youll never hear a word from me
If its an all night thing
I walked along, feeling at ease
And falling like rain
Into her scheme
She wont let on what that will be
But Im guessing
Its an all night thing
If its an all night thing
Nobody is gonna make it end
And if it doesnt begin
Dont worry that Ill take offense
And if its an all night thing
And we fall like a tear falling
To the ground
Ill never come around
And youll never hear a word from me
If its an all night thing
