

This Christmas Night (feat. Dia Frampton)

Kaskade

Every night in winter
Oh, there's a night they fall
Every star, every star that shining
It points in north
But you... you are my lullaby
A song I follow on this Christmas night Will you remember this Christmas night?
Will you remember this Christmas night?
Will you remember this Christmas night?
As the snow is falling
As we mount a fort
If we can nano, we can keep it after we go
With you... I've been left, I'm sad
You will always, always be a...
Will you remember this Christmas night?
Will you remember this Christmas night?
Will you remember this Christmas night? This Christmas night
