

# Girlfriend

MNEK

If your girlfriend knew  
'Bout me and you  
'Bout what we do (what we do) Tell me what would she do?  
Yeah if you told the truth  
And said the word  
Someone like her  
Just isn't right for you I'm a little secret nobody's supposed to know  
You want to keep this on the hush, keep this on the low  
I'm the reason she's wondering why you're never home  
Why you're never home (never, never)  
But imagine if she knew you were -ing me  
And acting irresponsibly  
While she's home learning recipes  
You've been in my bed constantly  
Neither you or your story's straight  
It's such a shame  
For a second put yourself in my place If your girlfriend knew  
'Bout me and you  
'Bout what we do (what we do)  
Tell me what would she do?  
Yeah if you told the truth  
And said the word  
Someone like her  
Just isn't right for you  
Cause you're g-g-g-controversial-g  
Wish you would come out  
Only see you when it's dark out  
Every time
