

Entourage

Omarion

Shh

Girl, girl, girl, girl, girl, girl, girl

All I can say is

Girl, girl, girl, girl, girl, girl, girl

Let's go I don't need nobody else around, see

Love the way you compliment my style

Though you may end up bein' my only girl

'Cause when you're with me you're my whole world Like when it's just me and you

Vibe is crazy between us two

You're my homie, my lover indeed and my friend

Now I said this before, I'ma say it again

Now here is the situation, I like what we've got happenin'

And I don't want nothin' comin' in between both me and you

I'll let you be lieutenant if you let me be captain

Tell me if that's cool Baby, I want you to be my entourage

Super fly chick

You could be my personal superstar

Super fly chick Baby, I want you to be my entourage

If you want then we could take this very far

Super fly chick You're a star in your own right

At times you steal the whole spotlight

I don't mind, girl, you're fine, put a smile on my face

Besides who want a chick that no dude would chase

Sometimes I know you're unsure

Wonder if this will endure

Don't make me make no promise that I can't keep

'Cause it's cool how it is, let's not complicate things, girl Here is the situation, I like what we've got happenin'

And I don't want nothin' comin' in between both me and you

I'll let you be lieutenant if you let me be captain

Tell me if that's cool Baby, I want you to be my entourage

Super fly chick

You could be my personal superstar

Super fly chick Baby, I want you to be my entourage

If you want then we could take this very far

Super fly chick You're a star, that you are

Be my girl, share my world

Come on girl, super fly chick Baby, I want you to be my entourage

Super fly chick

You could be my personal superstar

Super fly chick Baby, I want you to be my entourage

If you want then we could take this very far

Super fly chick
