

# Camera

## Editors

Keep close to me now  
I'll be your guide  
Once we have black hearts  
Then love dies  
Look at us  
Through the lens of a camera  
Does it remove  
All of our pain  
If we run  
They'll look in the back room  
Where we hide  
All of our feelings  
I just close my eyes as you walk out  
I'll keep your eyes wide open tonight  
Keep the car on the road now  
Feel love bite  
Look at us  
Through the lens of a camera  
Does it remove  
All of our pain  
If we run  
They'll look in the back room  
Where we hide  
All of our feelings  
I just close my eyes as you walk out  
You fall from grace  
We fall with such grace  
You fall from grace  
We fall with such grace  
You fall from grace  
We fall with such grace  
You fall from grace  
We fall with such grace  
Look at us  
Through the lens of a camera  
Does it remove  
All of our pain  
If we run  
They'll look in the back room  
Where we hide  
All of our secrets  
I just close my eyes as you walk  
I just close my eyes as you walk  
I just close my eyes as you walk  
I just close my eyes as you walk  
I just close my eyes as you walk out
