

Been That Way

Bryson Tiller

I wanna know how we became so distant girl
The way we fell in love it was almost instant
I'm trying to find a way around it
girl tell me how you feel about it
you still love me that's the way it's sounding
thank God I would've never found this
I doubt it I'm there for you if you will allow it
girl you know I gotta keep you around me
all this paper we counting
blazing these ounces
spend it on you baby no matter what the amount is
now you wanna know what's gotten into me
what's changed
I guess I had a hard time showing it at first
but
baby its been that way
baby its been that way
baby I still feel the same something I gotta maintain listen to me when I say
baby its always
always
always been that way its always been that way
its always been that way
baby I still feel the same
something I gotta maintain
listen to me when I say
its always been that way
How did we become so distant
like I'm the one to blame and your innocent
I tried to make a way make a difference
but some things don't change I can't complain I tried not to think about you
What can I say every time I get near you
I want that old thing back
now bring it to me
Shawty keep telling me what to do about you think she got jealous soon as she knew about you
she don't never want to see us go through a round 2
cut her off that's what I'm doing now you told me I should just go out and do my thang
damn right I'll do my thang
now you wanna know what got into me what changed
but baby aint nothin change
baby its been that way
baby its been that way
baby I still feel the same

something I gotta maintain
listen to me when I say
baby its
always
always
always been that way
its always been that way
its always been that way
baby I still feel the same
something I gotta maintain
listen to me when I say
its always been that way
its always been that way
