

# U & Me

## Cappella

U and me, U and me (x3)  
U and me forever  
U and me, U and me (x3)  
U and me forever Babe I must say  
You've got me groovy  
You keep it going, shake your body with me  
Now it is time  
Let's start the party  
Hear the music, setting me free  
Come on, come on, check the dope cut  
This one is to move or not  
And if ya did came to rock, I'll rock ya  
Anyway I can do it with or without ya  
Kick off your shoes  
Do what you wanna do  
And if you ask who  
I say "you !"  
Now you know what's up  
U and me forever non stop Babe I can see  
You're driving me crazy  
I wanna jump and jam with you  
I can if I please  
Play with your feelings  
But is the music, setting me free  
So don't try to hide, it's showin'  
In the way you look, make me known and  
I'm on a high grip  
Got ya in my grip  
On a fast tip sip so don't rip your dip  
No pause, knock knock  
Get up, get down, get up, you know how, fast  
The beat is flowin'  
U and me let's keep the jam goin'
