

Heavenfaced

The National

I could walk out, but I won't
In my mind I am in your arms
I wish someone'd take my place
Can't face heaven all heavenfaced No one's careful all the time
If you lose me I'm gonna die How completely high was I?
I was off by a thousand miles
Hit the ceiling, then you fall
Things are tougher than we are
I could walk out, but I won't
In my mind I am in your arms
I wish someone'd take my place
Can't face heaven all heavenfaced Let's go wait out in the fields with the ones we love
Let's go wait out in the fields with the ones we love
Let's go wait out in the fields with the ones we love
Let's go wait out in the fields with the ones we love She's a griever, I believe her
It's not a fever, it's a freezer
I believe her, I'm a griever now She's a griever, I believe her
It's not a fever, it's a freezer
I believe her, I'm a griever now
Because we'll all arrive
In heaven alive
We'll all arrive
Because we'll all arrive
In heaven alive
We'll all arrive
