

# Enemies All Around Me

## Ghostface Killah & Apollo Brown

Yo I formed a crew, niggas straight tell me I'm slippin'  
I'm the boss of this fam, I need to watch my position  
Bitches are sneaky, triffin', and not to be trusted  
A weak link in the team, in the chain of combustion  
Don't trust her, love is for suckas  
Too many enemies is out there son, tryin' to bring the ruckus  
Keep a tight circle, don't let her rain on your parade  
Keep doin' what we doin', gettin' money and gettin' paid  
Enemies all around me  
One mistake and they'll down me  
They just wanna rain on my parade  
I said the enemies all around you  
One mistake and they'll down you  
They just wanna rain on your parade  
It's mind-boggling the heart wants it, the mind rejects it  
Fuck the past, let's put the present in perspective  
That's my lady, she would never back-stab or cross me  
Stand butt-naked in the storm, sippin' the frosty  
Force me to choose, I'mma follow my heart  
She was there from the beginning, but I tore 'em apart  
No more Delucas, straight Killa Bee on the swarm  
And when it's time to get big, she put her game face on
