Escape My Mind

Grace VanderWaal

It was wrong; would've never worked
Or at least I told myself
To not make it hurt
I tried to blast music
In attempt to get you out of my eyes
But I can't escape my mindI hate you 'cause I always
Look at your picture
And I tell myself that I'm over you
But then I get a little unsureI wish I could get you
Out of my mind
But I think about it all the time
And I wish I could not think
For once in my life
But when I see your face
I can't escape my mind
I know we were never a thing
But I always think about
What could've happened if we kept going
And I never had this happen to me
Only in the movies
But honey it is happeningI hate you 'cause I always
Look at your picture
And I tell myself
That I'm over you
But then I get unsureI wish I could get you
Out of my mind
But I think about it all the time
And I wish I could not think
For once in my life
But when I see your face
I can't escape my mind
I can't escape my mind
I wish I could turn it off sometimes
I can't escape my mind, oh
No matter how hard I try
I wish I could turn it off sometimesI wish I could get you
Out of my mind
But I think about it all the time
And I wish I could not think
For once in my life
But when I see your face
I can't escape my mind
