

# Darkness and Light (feat. Brittany Howard)

[John Legend](#)

Fire and Ice, collidin'  
I wanna go deep and dive in  
Its heaven on earth, a hell of a night, to, melt into one  
She's never been afraid of sirens  
Head down but keep driving  
Man we might crash, moving so fast, but baby...Don't stop needin'...  
Release me, it's too hard for me to hold  
My heart, beatin', your touch, it thrills me to the bone  
All I could give us, I lost...lost control baby  
Nothing can stop, this love  
Nothing can stop, this love  
Never gonna get, enough  
Nothing can stop it....owe  
Darkness and light, \_\_\_\_  
The end before life, beginning  
No longer alone, my will becomes gone  
We melt into one  
Begins on the floor, you go low  
Who was I before I don't know  
And who am i now, your body shows how  
The past just has no meaning  
Don't stop needin'  
Release me, it's to hard for me to hold  
My heart, bleeding, your touch, it thrills me to the bone  
Oh Lord, forgive us, our lust, we lost control baby  
Nothing can stop this love  
Nothing can stop this love  
Never gonna get enough  
Nothing can stop it, Oooohhhhhh
