

I Wanna Love You (feat. Jussie Smollett)

Empire Cast

I'm gonna love you baby
Gonna kiss and hug you baby
Make you feel like its alright
You got [?] up on you
Come here darling give me sugar
Gonna show you what it feels like (lets fly)Hey baby, come and love me
Ooo child you, you make me crazy
I need you, right here next to me
We're gonna go away while we're still at home
If we can fly, real high
Then there will be no landin' in sight, yeah
And if I can stay, all day
Got you wrapped up in my arms
I'm gonna love you baby
Gonna kiss and hug you baby
Make you feel like its alright
You got [?] up on you
Come here darling give me sugar
Gonna show you what it feels like (feels like)Maybe its the way you move, yeah
Not noticin', you're stuck up in the groove, aw baby
Show us the way you shine
You got silly fools stuck up in the line, for you
Lately I've been wondering
Are you gone and where you been?
[?], aye
Lookin' and listenin'
[?] to get you in
Makes me laugh every single time
I'm gonna love you baby
Gonna kiss and hug you baby
Make you feel like its alright
You got [?] up on you
Come here darling give me sugar
Gonna show you what it feels like (lets fly)
I'm gonna love you baby
Gonna kiss and hug you baby
Make you feel like its alright
You got [?] up on you
Come here darling give me sugar
Gonna show you what it feels like (lets fly)Let's fly, let's fly
Let's fly, let's fly
Let's fly

Let's fly
Let's fly, let's fly
Let's fly, let's fly
Let's fly
Let's fly
Hey, hey
