

# Velvet Elvis

Kacey Musgraves

All I ever wanted was something classic  
The kind love song that goes on 'til the end of time  
All I ever wanted was a little magic  
With a good laugh, jet-black sparkle in his eyes You're my velvet Elvis  
I ain't never gonna take you down  
Making everybody jealous  
When they step into my house  
Soft to the touch, feels like love  
Knew it as soon as I felt it  
You're my velvet Elvis, baby  
I don't really care 'bout the Mona Lisa  
I need a Graceland kind of man who's always on my mind  
I wanna show you off every evening  
Go out with you in powder blue and tease my hair up high You're my velvet Elvis  
I ain't never gonna take you down  
Making everybody jealous  
When they step into my house  
Soft to the touch, feels like love  
Knew it as soon as I felt it  
You're my velvet Elvis, baby  
You're my velvet Elvis, baby I knew it as soon as I felt it  
Mm-mm, I knew it as soon as I felt it  
Yeah  
You're my velvet Elvis  
I ain't never gonna take you down  
Making everybody jealous  
When they step into my house  
Soft to the touch, feels like love  
Knew it as soon as I felt it  
You're my velvet Elvis, baby  
You're my velvet Elvis, baby, yeah
