

Cracks (Flux Pavilion Remix) [feat. Belle Humble]

Freestylers

Leave the past behind, just walk away
When it's over, and the heart break
And the cracks begin to show
And the cracks begin to show
Leave the past behind, just walk away
away
When it's over, and the heart break
And the cracks begin to show
Begin to show
Leave the past behind
Begin to show
Leave the past behind, just walk away
When it's over, and the heart break
And the cracks begin to show
And the cracks begin to show
Leave the past behind, just walk away
away
When it's over, and the heart break
And the cracks begin to show
Begin to show
Leave the past behind
Begin to show
Leave the past behind, just walk away
When it's over, and the heart break
And the cracks begin to show
