

# She Get Me High

Luke Bryan

Find me a place in the sand  
Clean these old shades off  
Then y'all don't understand  
All she wants to do is dance She get me high  
She get me low  
She got the keys to this old bronco  
In her bare feet, but in her high heels  
No matter how she moving  
It's all the same thrill  
On top of my Yeti  
On an old bull dog  
Standing in the river on an old flame rock  
Twelve roads by  
She get me high  
Don't nobody block my view  
Hell you can find a spot and watch too  
Watch as she makes this beach  
Light up like the sky on New Year's Eve  
Love it when she's locked on me She get me high  
She get me low  
She got the keys to this old bronco  
In her bare feet, but in her high heels  
No matter how she moving  
It's all the same thrill  
On top of my Yeti  
On an old bull dog  
Standing in the river on an old flame rock  
Twelve roads by  
She get me high Come on  
She said; "boy, it's time to take me home"  
Don't even grab your stuff  
Just lay me on down  
Need the pool and moonshine  
You 'bout to be all mine She get me high  
She get me low  
She got the keys to this old bronco  
In her bare feet, but in her high heels  
No matter how she moving  
It's all the same thrill  
On top of my Yeti  
On an old bull dog  
Standing in the river on an old flame rock

Watch me fly  
She get me high  
Twelve road by  
She get me highHey
